## SPATIAL RHYTHM

Moonkiz Cafe, a journey into Korean culture through WOW Design ceramics  
Moonkiz Cafe, Thessaloniki, Greece, is an experience unlike any other, the coffee ritual reinterpreted through the aesthetics and rhythm of Korean culture. It is a sensory interior where graphic identity, light and materiality create an immersive experience

WOW Design ceramics serves as the material thread through the space. Moonkiz Café is conceived as a small narrative universe in which the everyday ritual of coffee is transformed into a slow, mindful spatial experience. Inspired by Korean aesthetics, the project proposes a way of inhabiting space based on rhythm, repetition and attention to detail, translating these values into an architecture designed to be explored and lived.

## A MATTER OF SALONE

Salone Del Mobile.Milano2026 sets the coordinates for the project's near future. The most important international furniture and design industry event reveals the 64th edition programme including the return of the biennial exhibitions and new curatorial territories.

Following the success of the 64th edition, the Salone, the most important international furniture and design industry event, is preparing to add a new chapter to its history: the Salone del Mobile 2026 will take place from 21st to 26th April at Fiera Milano Rho. More than 1,900 exhibitors (36.6% from abroad), 227 brands including first-timers and returnees, over 169,000 square metres of net exhibition space completely sold out. At the centre of it all is the eagerly awaited return of the biennial exhibitions: EuroCucina with FTK – Technology For the Kitchen, featuring 106 brands from 17 countries, and the International Bathroom Exhibition, which will bring together 163 brands from 14 countries. These figures confirm that the Salone is an active and evolving cultural infrastructure: a relational and strategic driver that fuels global connections, disseminates shared visions and consolidates Milan's role as the capital of contemporary design.

## VERSATILITY OF CERAMICS

Celebrating the winners of the 24th ASCER Tile of Spain Awards

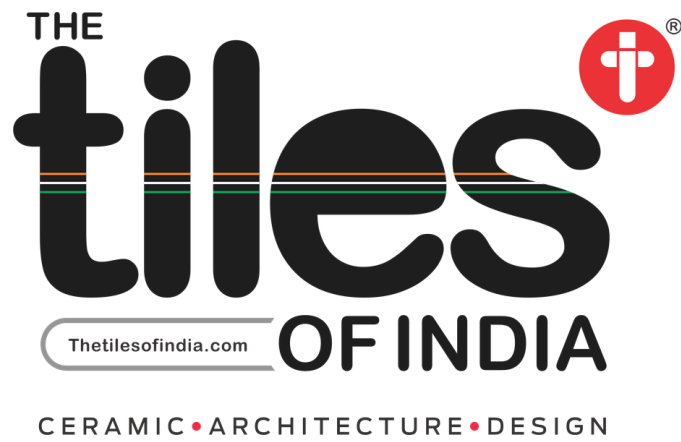

The awards ceremony is part of the Time of Spain programme, aimed at national and international media specialised in architecture, interior design, and ceramics

The awards highlight outstanding projects in architecture, interior design, and master's theses that feature Spanish ceramics

The winners showcase ceramics as a versatile and essential resource in modern architecture and interior design.

As part of the Time of Spain initiative, which brings together nearly 70 companies from the Spanish ceramic sector, the awards ceremony for the 24th Tile of Spain Awards for Architecture, Interior Design, and Master's Thesis has taken place.
