A portrait of an elderly man with grey hair, wearing a light-colored button-down shirt, looking slightly to the right. The background is a blurred green tree.

ARCHITECT ICON

SPIRIT OF A STRUCTURE

Architect Raj Rewal has, for long, set global precedents with his urban narratives of design that have been integrally and richly steeped in their contextual inferences

Raj Rewal born 24 November 1934 is a leading Indian architect. He lived in Delhi and Shimla from 1934–1951. He attended Harcourt Butler Higher Secondary School. Between 1951 and 1954 he attended the Delhi School of Architecture in New Delhi. After completing a degree in architecture in New Delhi, he moved to London in 1955 where he lived until 1961.

MARKET WATCH

THE INDIA STORY

The Indian tile and sanitary ware industry is showing great preparedness in all sectors and regions to identify their highest-value opportunities while also addressing their most critical challenges

India is one of the fastest growing ceramic tiles and sanitaryware markets at the global level. It ranks as the world's second-largest producer and consumer of ceramic tiles. India's ceramic tiles industry is expected to double in size by 2027. India's export market size reached ₹16,500 crores in FY23, constituting 30% of the overall market and growing at a CAGR of approximately 15% from FY19 to FY23. Around 90% of tiles in India are manufactured in Morbi, Gujarat, and exported through the Mundra port. Of this, 80% is exported to the USA (60-70%), Saudi Arabia (20%), and the remaining 10% to the UAE thus creating a very large network of business. The Indian ceramic tiles market has seen a tremendous resurgence post covid that has been driven by the expansion of building industry, owing to the rapid expansion of the housing sector and increased construction spending across the globe. The ceramic tiles market is expected to expand because of this rapid urbanization and population growth.
