## IN MULTIVERSE

Reggio School, designed by Spanish architect Andrés Jaque's, Office for Political Innovation has been included in the list of the most impressive buildings to be finished in 2022 by El País ICON Design

Spanish architect Andrés Jaque's, Office for Political Innovation, has completed a school near Madrid that aims to stir a colourful and vivid imagination in children. Located in Encinar de Los Reyes, on the northern outskirts of the Spanish capital, Reggio School is a six-storey building featuring cork walls, concrete arches, porthole windows and zigzagging roofs. The design of Reggio School is based on the idea that architectural environments can arouse in children a desire for exploration and inquiry. In this way, the building is thought of as a complex ecosystem that makes it possible for students to direct their own education through a process of self-driven collective experimentation.

## SCANDI STYLE

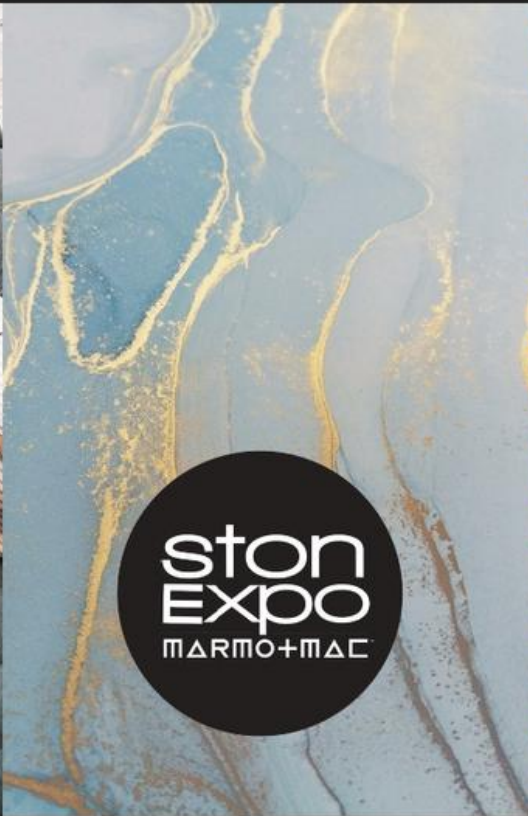

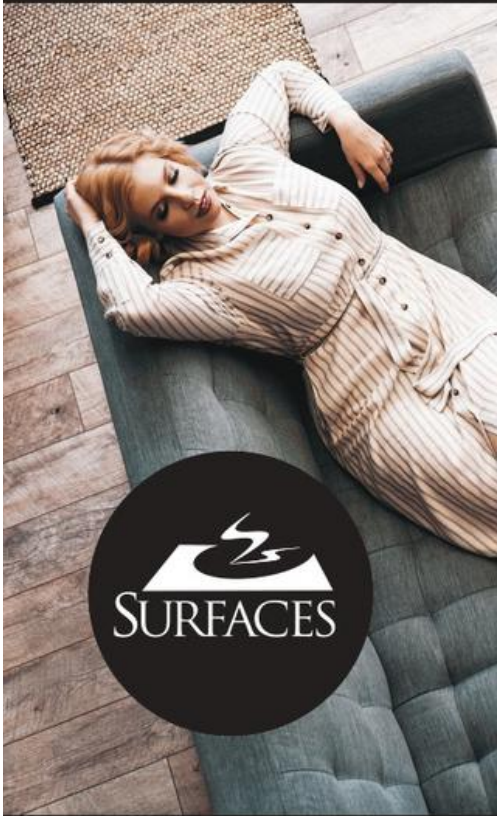

Scandi style interior design is clean yet inviting, we share 6 ways to incorporate this style in your space!

Scandi-style interior design is clean, crisp, inviting, and calming yet very interesting. As a movement, Scandinavian design began in the early 20th century, mixing old and new styles from Denmark, Sweden, Iceland, Finland, and Norway. In the 1950s, Scandinavian interior design gained traction in the US and Canada. The scandinavian design reflects both modern trends and traditional styles, leading to an overall style that blends a fresh design with timeless craftsmanship.
