## CONVERGENCE OF EXCELLENCE

Tonino Lamborghini and Italcer announce the agreement for the new Tonino Lamborghini luxury surfaces ceramic collection.

Tonino Lamborghini, a luxury accessory and real estate project brand, and Italcer, a hub of Italian ceramic design and high-end bathroom furnishings, have signed an agreement for the new collection of floor and wall surfaces bearing the Tonino Lamborghini Luxury Surfaces trademark. The convergence of such excellence has given rise to a new range that seamlessly combines high technology and tireless research, distinguishing features of Italian design.

**TILE TALK**

## **8 BEST CLADDING TILES**

Tiles are a good choice as Cladding material, we present the best 8 choices!

Cladding is the application of one material over another to provide a skin or layer. In construction, cladding is used to provide a degree of thermal insulation and weather resistance, and to improve the appearance of buildings. Cladding can be made of a wide range of materials including wood, metal, brick, vinyl, and composite materials that can include aluminum. Cladding is available in different forms, materials, textures, dimensions. Rainscreen cladding is a form of weather cladding designed to protect against the elements, but also offers thermal insulation. The cladding does not itself needs to be waterproofed, merely a control element: it may serve only to direct water or wind safely away in order to control run-off and prevent its infiltration into the building structure. Cladding may also be a control element for noise, either entering or escaping. Cladding can become a fire risk by design or material. We bring to you 8 best tiles for cladding which is suitable for your requirements. They are best when placed correctly as per your requirements.
