SHOWCASE | PROJECT

BESPOKE RESIDENCE

Sunny Valley' residence situated in Ukraine is a stunning contemporary design project by the amazing designer Natalia Bolshakova of the firm and studio Bolshakova Interiors.

Incorporating distinct style elements important to the client, Bolshakova Interiors designed a contemporary home that feels classic, yet functional, and undoubtedly sleek. Taking inspiration from French and American interiors, such as the personal homes of Christian Dior and Ralph Lauren, in addition to influences from the Four Seasons Hotel designed by Pierre- Yves Rochon, the modern interiors were radically overhauled, from staircases to windows, flooring to façades.

DECOR TRENDS

SUMMER DECOR TRENDS 2021

Summers are about an easy, breezy style, we bring to you some fresh ideas!

There's something so distinctly beautiful about summer decor. Those breezy fabrics, muted color palettes, natural fibers, and contemporary influences associated with the season make it feel like bringing the sunshine indoors. Here are a few ways to incorporate summer design trends into the year-round decor. With Caffe Latte, we help you to preserve that summery vibe at home for the rest of the year.

The Minimal Way

This isn't the first time minimalism has been featured as an interior design trend, and it sure won't be the last. Interior designers have been building on minimalism to take a more meaningful design that is clean yet functional. Minimalism is more than just empty, open spaces. When the sun decides to grace with its presence, the light will shine through, giving a glimpse of the summer to come!

BEST ANTI-SKID / SLIP TILES

Slipping on tiles is a very common phenomenon and can cause serious injuries. Here are some of the best anti-skid/anti-slip tiles to avoid such accidents!

Anti-skid or Anti-slip tiles are designed with a better grip in mind to reduce the risk of slipping where they are installed. They have an anti-slip floor coating to keep friction high even when the surface is wet and soapy. The common materials used for anti-skid tiles are porcelain and ceramic which are well-suited for the outdoor purpose as well because they are resistant to graze and blemish, and hence lend a sense of timelessness to the designs. They are also helpful for bathrooms and kitchens, where slipping is a common scenario. However, there are many other places in the house where anti-slip tiles can be useful.
