PROJECT

HEAVENLY VIBES

A high-end condo in Los Angeles imbibes a heavenly vibe leaving a fantastic first impression

Located in the city of angels, this curated house is truly a gift from the heavens. Born from a partnership with Ivan Satria, from Kintsugi Visual, this high-end contemporary condo is worthy of the top A-listers from Hollywood. The welcoming area to this project, the Foyer serves as the red carpet for the main event. The fully upholstered velvet armchair makes a true statement for the entryway. Also, leaving a fabulous first impression are the wall lamps where elegance is present in every crystal. The contemporary appeal is completed by combining the eyecatching of Angra sideboard with the Glance Mirror.

TECNA 2024

Success for the international show dedicated to tiling technologies and supplies with the next date set for Tecna 2024

Innovation, sustainability and digitalization, these are the three main keywords that bring together the range of offerings showcased by the over 320 brands exhibiting that determined the success of Tecna 2022 - the international show dedicated to tiling technologies and supplies staged at the Rimini exhibition centre by Acimac (association of Italian manufacturers of machinery and equipment for ceramics) and IEG (Italian Exhibition Group).

The show was also characterised by a high level of international attendance, with 45% of the trade members at the event in Rimini arriving from over 100 countries around the world, confirming the event's leading global status. The areas most represented include Latin America, the Middle East, Africa and South East Asia, not to mention the USA, India, Iran, and Europe.

MORBI BRIDGE COLLAPSE

The 'Jhulto Pul' or hanging bridge in Morbi collapsed on 30th October 22, our condolences to all families that lost their loved ones in this tragedy

At the latest count, 141 people have died after a pedestrian suspension bridge collapsed in Morbi, Gujarat on 30th October 2022. Rescue operations are underway and nine people have already been arrested. An FIR has been lodged against bridge maintenance and operation agencies. The Jhulto Pul ("hanging bridge") was a 230-metre (750 ft) long, 1.25-metre (4 ft 1 in) wide pedestrian suspension bridge over the Machchhu River, built during British rule in India in the 19th century. It was inaugurated on 20 February 1879 (143 years ago).
