3D STYLED

Technology and design in the new ceramic proposals by ABK Group

ABK Group brings to Cersaie, the International Exhibition of ceramics for architecture and bathroom furnishings, the lifestyle and research of its brands ABK, Flaviker, Abkstone and Materia in an immersive journey that ranges from color to matter thanks to the exclusive 3DTech and Full Vein 3D technologies. The first allows to apply thick ceramic materials in perfect correspondence with the graphics to obtain surprising three-dimensional effects while, through the Full Vein 3D technology, greater graphic continuity is achieved between surface and thickness in the through-grain slabs, a plus linked to the controlled digital mixing of different colored raw materials.

PROJECT

JEWEL MANOR

Architect Francesco Venzi has renovated the four star Relais Castello Di Casiglio, a jewel with 700 Years of history

The Relais Castello di Casiglio in Erba is a fascinating structure that speaks through its 700 years of history. It's a true jewel located in a strategic position not far from Lake Como with its most famous destinations: Cernobbio, Tremezzo with Villa Carlotta, Bellagio with Villa Melzi, Lenno with Villa Balbianello and Varenna with Villa Monastero. A few kilometers away, the area offers plenty of possibilities to sports lovers: tennis courts, horse riding centers, cycle paths, adventure parks and nautical activities. The Villa d'Este Golf Club is just 4 km from the Castle. This 4-star Relais is an ideal location for meetings, conferences, teambuilding activities, weddings, events and romantic or themed dinners served in the new Lecru Restaurant, located in the oldest part of the castle and also open to external customers.
